NEW GRANNY FLATS FROM SMARTSTEEL

- Compliant ready to assemble granny flat sets

Lock up stage package cost is \$39,400

- Can be erected on site poured or pre-cast concrete and structural floors
- These packages use cost- efficient building practices combined with value engineering that are hallmarks of the smart steel enduro building system.
- Take advantage of the recent relaxed guidelines for compliant granny flats and gain a cost-effective addition to your current property.
- The units offer a wide range of applications from an extended self-contained living area for family to additional income as a rental.
- These quality buildings can add up to 30% value at sale or valuation.
